

Marskalken 2 informs – March 2022

Plumbing renovation

Work goes on in JEV 46, 44 and 42 according to the revised time plan. First inspection has been done in JEV 40A – 4 room apartments.

Protection covering and lock exchange will be done on March 11, in line with the time plan,

Next step in JEV 40A is started with first inspections on March 10 (3 room apartments) and in JEV 40B on March 24 and 14 April.

Protective covering

BMG will cover doors with overlapping plastic sheets.

If anyone provides a "zipper door" BMG will put it in place. Zipper doors can be bought at stores like Bauhaus.

Additional interior choices

BMG has asked us to remind that all additional choices should be confirmed latest week 09. Unless the proposal is confirmed, the design will be according the standard solution.

Bike rooms

BMG needs to have access to areas in the bike rooms in 44 and 40A for electrical work. Bikes in the effected areas need to be removed. Information will be posted on the bike room door in advance.

Do not move furniture in/out or block the street on work days between 07-16

Full storage room?

At the spring cleaning day a container will be provided to give a opportunity for cleaning out possessions you do no longer want to keep.

The date for the spring cleaning day will be posted on the bulletin boards.

Basement shelters

Shelters are built in the basement, with alternative use as storage areas. Note – nothing heavier than 60 kg is allowed in the storages, as storages must be able to be emptied in 2 days in case shelter is needed.

Contact / opinions
