

# Information from Marskalken 2

## March 2023

REMINDER

### New financial system

Through our administrator (Princip), we have gained access to a new system for e.g. economy. It is mainly for the board, but residents can see information about e.g. their own apartment and contract. More information will come later.

### Economy

Due to the changing interest rates, the situation is still unpredictable. We try to find areas where we can save money.

### Bad odor in wet room

We have discovered several cases of bad odors in the wet rooms (those with a floor drain). It has been due to the insert in the water trap not being reassembled correctly. [Link to instructions](#) (in Swedish)

### Label your storage

In order for us to be able to quickly identify who owns the storage, we would like you to mark all storage with name and apartment number.

### Contact and/or points of view

The best way to reach the board or someone on the board is email: [info@marskalken2.se](mailto:info@marskalken2.se)

If you want the letter printed, contact the board using the link above.

Report remaining damages and errors related to the renovation before April 1. .

### Returpunkt Solna Centrum

Here, as a private individual, you can leave things for recycling, small amounts of gross waste, electrical waste (maximum size of a microwave oven) and certain hazardous waste.

[Information and opening hours](#)

### Items in our entrances

It is not permitted to display loose objects in our entrances and stairwells. The fire and rescue committee can order property owners to remove flammable objects from common areas, subject to a fine.

### Maintenance on the broadband

The work is estimated to last for about 6 hours, during this time there is a risk of disruptions and that the service will not be available.

**Service window: at 2023-03-06 kl. 00:00 - 06:00**

After the service window, you may need to restart the equipment. If the service does not work despite this, you need to immediately call Bredband2. 0770-81 10 10

### Old potting soil

Do not put in the flower beds but in the compost at the backside
