#### Bicycles taken care of

There are four bikes without a known owner that were taken care of on the cleaning day. Are you missing your bike? Contact the board.

#### Contact

The best way to reach the board or someone on the board is email: [info@marskalken2.se](mailto:info@marskalken2.se)

If you want the letter printed, contact the board via the link above.

#### Don't forget the tables in the back

Here you can have coffee, party and maybe grill all summer long (weather permitting).

Grills are available in the 44's bike room.

#### For safe grilling:

#### Garbage disposal (again)

It feels sad that we have to bother about the garbage disposal. Everyone (should) know that our garbage disposals are only intended for well-packaged (plastic bag) household garbage.

Someone has now thrown a yucca palm into the garbage chute, which of course resulted in a stoppage. The risk is that, like other properties, we

will be forced to close the garbage chute – We guess nobody wants that.

#### What to do with leftover plants?

At the back of the property, up by the roundel, there is a compost intended for flower soil and potted plants. That's where they belong, not in the garbage chute.
